# ICCMA CONGRESS 2017

The Corrugated Packaging Industry in India continues to witness dynamic transformation since last decade.

The growing Indian economy and a flourishing organised retail, have raised the expectations that consumption of corrugated packaging will continue to expand as the volume of goods packaged in corrugated boxes, increase.

The booming e-commerce has created new avenues for corrugated boxes – since most of the online products use corrugated boxes for despatching the products to online buyers.

The roll out of the long awaited GST is expected to boost trade and business in a phenomenal way -with expansion of infrastructure facilities and upsurge in per capita income and growth. All these factors will continue to increase the demand for corrugated packaging.

The industry is today going through a Big Transition and, Managing this Transition will be the key to success.

In light of the above, we have kept the Theme for **ICCMA Congress 2017 as Managing Transition - Myths and Reality.**

**ICCMA Congress 2017** - scheduled to be held on 14,15 & 16 September 2017, will be an ideal platform to focus on this important aspect. Eminent speakers and experts will throw light on the Theme and share their perspectives with the delegates.

This 2½ day ICCMA Congress 2017 will be a fully loaded, high-profile event that will be an enriching experience for everyone connected with the Corrugated Packaging Industry.

Team ICCMA has put in a lot of efforts to plan appropriate content and speakers for the ICCMA Congress 2017, so as to deliver value to the participating delegates.

**India Corr Expo 2017** is concurrently being organised by Reed Manch Exhibitions (Organisers of Sino Corrugated in China) in the same venue.

**This is an Unmissable event for everyone connected with the Corrugated Packaging Industry.**

Please fill in the enclosed forms for Registration and Accommodation and send them along with requisite payments to the respective addresses, as detailed in the forms.

**We look forward to meeting you at ICCMA Congress 2017.**

Indian Corrugated Case Manufacturers Association- ICCMA was established to bring together all progressive box makers in India, on a single platform, to discuss, interact and chalk out plans for the growth of the industry.

ICCMA has been working along with Government organisations, large users of corrugated boxes, machinery manufacturers and others, to draw a road map for taking the industry to the next level.

ICCMA has been established to specifically address the issues faced by the corrugated box units having automatic corrugating production lines.

Present production of packaging by ICCMA members constitutes over 30% of total All-India Corrugated Box Production. The capacity being served by all automatic corrugated plants is to the tune of 50% of the total capacity.

With over 160 members, ICCMA is forging ahead as a group of box makers focused on scaling up the industry to a global level.

## TEAM ICCMA brings its combined strength to the table for the benefit of all stakeholders.
